Alliant Metals Inc. is proud to announce the addition of Centerless Grinding to our list of value-added services. Our Cincinnati Twin Grip Centerless Grinder will provide tight tolerance thru-feed grinding for manufacture of parts up to 14 feet long and up to 6 inch in diameter.

With our extensive metals inventory, and our current toll services, Alliant is your one-stop metal shop! Let us source your metal needs, production cut to size, waterjet to precision quality shaped parts, shear and plasma cut to size, polish to 180 grit (#4) and now centerless grind to fit your custom metal requirements. Also not forgetting that we deburr all cut pieces and provide original mill test reports at no charge and with every order.

LET US BE YOUR ONE-STOP METAL SHOP!
