ALLIANT'S MACH 3 & 500 WATERJETS

Alliant Metals Inc. is proud to introduce the newest addition to our value-added equipment.

The Flow Mach series offers you the world's most reliable ultrahigh-pressure pump, intelligent process monitoring, and an array of unparalleled options all integrated into the most powerful waterjet control available.

Now, with two Flow Waterjets onsite, Alliant is in a position to reduce lead times, increase productivity and provide the utmost service for all your waterjet requirements.

We can waterjet cut up to 6" thick plate 72" x 144" with weight adjustment determinations.

Please call 800-543-1453 to allow us the opportunity to demonstrate what we can do for you!
